The Sneeze Guard Company

Project Name: _____

Location: _____

Item #: _____ Qty: _____

Date: _____

Model: **D990**

Class: Partition - Sneeze Guard - (vertical shield)

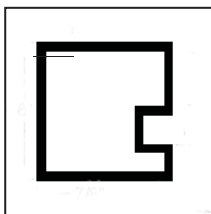

Model D990 is our Sculptured Post Series. The three posts styles makes this a versatile easy to use system. The posts are made of heavy-duty extruded aluminum. The Sculptured posts are designed so that the glass channel is recessed in the posts. To simplify the installation the post has a concealed mounting base. The combination of the recessed glass channel and concealed mounting base makes for a simple clean installation. There is a black cap for the top of the posts. The posts work with any 1/4 inch glass. If this system is being used as a sneeze guard you should review you plans with your local health department.
